

COMPANY PROFILE

ABOUT MENTA

Menta Etiket was founded in 2022 by professionals with over 30 years of experience in the label industry. Since our establishment, we have been investing solely in our business, aiming to achieve high production standards at all times through our experienced staff, modern equipment, and suitable working conditions.

In line with our production philosophy, Menta Etiket prioritizes the use of environmentally friendly materials and continuously improves itself with new technological products. We generally recommend these eco-friendly materials to our customers and avoid substances that may be harmful or questionable in terms of human health. Our products are certified with the Oeko-Tex ecological quality standard.

As a business partner, we develop innovative and creative solutions in line with our customers' needs. We take pride in our reliability by producing with an awareness of quality and sustainability.
